**Abstract** : Recently in this laboratory 1-substituted-2-formamidino-4-amino-6-thio-1,3,5-triazines (**XIIIa-g**) were synthesised by isomerisation of 2-substituted imino-4-amino-6-formamidino-1,3,5-thiadiazines (**XIIa-g**) successfully by refluxing with 10% aqueous ethanolic sodium bicarbonate medium. The structure of all the synthesized compounds was justified on the basis of chemical characteristics, elemental analysis and spectral studies.

**Keywords:** Triazines, synthesis, 1-Substituted-2-Formamidino-4-Amino-6-Thio-1,3,5-Triazines.
